ROME. August t.—Germany has made an appeal to Italy to stand with her, according to the Giornale Ditalie. The newspaper says the attention of the Italian government has been called to what Germany describes as hostile acts on the part of France, which the German government asserts constitute a case coming within the terms of the treaty of Alsace, even though on account of these acts the declaration of war came from Germany. The Giornale Ditalie says it understands the Italian government will not change its attitude of neutrality.
